DETAILED ACTION

Allowable Subject Matter

1. Claims 1-19 are allowed.
2. The following is an examiner's statement of reasons for allowance: Link Capacity Adjustment Scheme (LCAS) was submitted for inclusion in the SONET standard T1.105 on September 10, 2000. Independent claims 1, 2, 18, and 19 disclose limitations that are admitted by the applicant to being present in the LCAS standard. The improvement to the LCAS standard presented by the applicant are the limitations: "status information for less than a maximum number of said forward channels" and "said status information being out of phase." Nakano et al. (US 5,321,688), Nagel et al. (US 6,163,529), and Srinivasan et al. (US 6,304,549) disclose methods for monitoring and adjusting link capacity, but none disclose the limitations of sending status information for less than the maximum number of forward channels and returning the status information out of phase.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
